**Accurate Construction &
Engineering Services**

www.acesind.com

We respond very quickly to the requirements of our clients. Over the years we identified the machinery & methodologies which meets clients expectations in line with modern approaches followed across our field work. Today we operate with different variety of materials and equipment to our clients. This approach allows us to remain competitive in our market as we are able to maintain our goodwill through a streamlined servicing system resulting in timely completion of services to our clients.

Our diverse client base now includes – industries like cement, power & steel, residential, commercial and government sectors. We will continue to work with our clients and industries, providing innovative and effective solutions and services.

Our Keys to Success

- ✓ Providing a quality of service on time and within budget.
- ✓ Working honestly by developing a follow-up strategy to gauge performance and build trust with all our clients.
- ✓ Developing an end to end engineering services capability
- ✓ Working closely with our customers and providing a transparent line of communication.

Our Staff

Over the years we have built a stable workforce with a large number of our employees being 'long term employees'. Loyalty and commitment are values we promote amongst all our employees, from apprentices and trainees through to senior management. We support our local community by providing career opportunities for local people. Each year we offer two apprenticeships and or traineeship in the trades we require. I am proud of our ability to be able to offer these career opportunities for our young people. Today, a number of our qualified and experienced tradespeople in fact commenced employment with the Company as an apprentice trades- person.

Our Approach

Reliable Service

Strong involvement with client to ensure we give rich industry experience

Safety

Safety of our staff or people affected by our work, is of the highest priority

Work Plan

Dedicated schedules and project timelines to ensure timely services

Integrity

We are honest in all our services to ensure we obtain trust of our clients

At ACE Services, we have all the possible resources to ensure successful project completion and client satisfaction. Our goal is to be sure that our clients project progresses smoothly and that all project time frames and resources are managed as efficiently and effectively as possible. Our staff are trained and competent in all onsite requirements and specifications.
